HERDHAUL - EXAMPLE DELIVERY

Load EXAMPLE-001

Load status

- ✓ Driver accepted
- ✓ Delivered
- ✓ BOL uploaded

Delivery details

Delivered head count 42

BOL number EXAMPLE-BOL-001

BOL documents

Example delivery document.pdf

Generic example - No real document or delivery

Illustrative workflow with generic examples; no live customer records.

1. Enter delivery details

After delivery, enter the delivered head count, loaded and unloaded weights, and BOL number in the private load page.

2. Add your paperwork

Use Take Photo or Choose Photos / Files. Check that every needed page is readable.

3. Mark Delivered

Review the entries, submit, and keep the page open until Delivery Complete. A local save is not server confirmation.

Good to know

This is the private load-link workflow. Allocation progress and paperwork are reported separately.
